

South Jersey Gas Company
Schedule 1.0

1. South Jersey Gas Company ("SJG" or the "Company") will provide the Company's residential and small to mid-sized commercial customers ("Customer" or "Customers") with a Utility Consolidated Bill ("UCB" or "Utility Consolidated ("UC") Billing") as that term is used in the Order of the Board of Public Utilities in Docket Nos. EX99090676 and EX94120585Y, dated June 24, 2004, as amended by Board Orders in Docket No. EO13030236, dated May 29, 2013 and November 22, 2013 (collectively referred to herein, as the "Orders"). The Orders are incorporated herein, by reference. A Customer shall be entitled to a UCB once it is determined by SJG that the Customer is creditworthy.
2. SJG will provide UC Billing services for Customers at a cost to Marketers as explained in Paragraph 9 below.
3. SJG offers the Purchase of Receivables ("POR") associated with Customers for whom SJG provides a UCB.
4. A Customer for whom a UCB is sent will be informed that the failure of that Customer to keep its bill payment current may result in a conversion from UC Billing to Dual Billing. As used in this Schedule 1.0, the terms "Dual Billing" or "Dual Bill" shall have the same meaning as is ascribed to those terms by the Orders.
5. Customer accounts that are one hundred twenty (120) days in arrears will be considered seriously delinquent and, at SJG's discretion, may be converted from UC Billing to Dual Billing. Should SJG elect to discontinue UC Billing to a seriously delinquent Customer, the Customer and the Marketer will be notified that the UCB will not be supplied and that Dual Billing will commence with the next meter reading date, as long as the next meter reading date is no less than forty-five (45) days from the date of said notification. A Customer shall be ineligible for Utility Consolidated Billing until such time as the Customer is no more than sixty (60) days in arrears.
6. If a Customer is converted from UC Billing to Dual Billing for any reason, both SJG and the Marketer will be responsible for the Customer's respective receivables, effective as of the start of Dual Billing. That is, effective as of the start of Dual Billing, SJG will be responsible for receivables associated with transportation of the gas commodity, and the Marketer will be responsible for receivables associated with acquisition of the gas commodity.
7. If SJG assumes the Marketer's receivables, then SJG will provide a means for notifying the Marketer, on at least a monthly basis, of all accounts of Customers sixty (60) or more days in arrears. The notification will identify the Customer and will also include the amount of commodity arrearage.
8. SJG will process enrollment applications for Marketer at no charge provided that the Customer's account number is provided. If a Customer enrollment application is received without provision of the Customer's account number, the enrollment will be processed at a rate of \$43.83 per hour.

9. SJG may implement the charging of an administrative fee, or alter the purchase price pursuant to which receivables are purchased from the Company. SJG shall charge a \$0.075 billing fee and \$0.90 receivable fee per Customer per month, which may be adjusted from time to time; provided, however, that SJG may only make such adjustment after obtaining approval from the Board of Public Utilities. The Marketer retains its statutory right to question any administrative fee or change in receivables purchase price implemented pursuant to this Paragraph 9.
